Prepare for relocation

- When the carrier arrives for pick-up, a complete exterior inspection will be completed prior to loading your vehicle. For purposes of a thorough inspection, it is helpful if your **vehicle is clean** and clear of ice, snow or other debris.
- **Alarm systems** should be disabled before our driver's arrival on the day of loading.
- One **set of keys** for the vehicle must be provided at the time of pick-up.
- All exterior **spare tire, grill or car covers** must be removed. **Caps, canopies** or other such items on pickup trucks must be properly bolted to the bed of the truck to ensure safe delivery. **Vinyl or canvas tonneau covers** must either be rolled (retracted) and locked or removed.
- Please ensure your vehicle has the appropriate level of **coolant, transmission fluid and/or antifreeze**. Neither Reindeer nor the carrier shall be responsible for damage caused by Acts of God or nature that may change the climate conditions.
