

WATERCRAFT *Checklist*

Is my watercraft ready for transport?

- Have I removed **all personal belongings**?
- Have I provided Reindeer with an **active phone number** for me or my contact at origin and destination?
- Have I removed **all plexiglass and plastic flying bridge windshields and windscreens** and stored them securely inside the vessel?
- Does my watercraft have a **renovated cradle, boat trailer** or any other hauling device? If so, a cradle should fit the exact shape of the hull, be in good condition and properly secure the vessel.
- Did I remove all **electronic gear**, including radios, antennas, depth finders, compasses, etc.?
- Did I demount any **vinyl or canvas covers** or tops?

Prepare for relocation

- When the carrier arrives for pick-up, a complete exterior inspection will be completed prior to loading your vessel. For purposes of a thorough inspection, it is helpful if your **watercraft is clean** and clear of ice, snow or other debris.
- **Battery cables** must be disconnected.
- Per safety guidelines, all **fuel, water and holding tanks** must be empty prior to pickup.
- Secure and **lock the cabin and leave the keys** with the carrier. Neither Reindeer nor the carrier is liable for any interior damage and/or missing items from an unsecured cabin.
- All **ports, hatches and windows** must be locked.
- Please ensure your **watercraft is fully winterized** including engines, toilets, water systems and masts. Neither Reindeer nor the carrier shall be responsible for damage caused by Acts of God or nature that may change climate conditions.
- All **items in the cabin** must be stored and/or secured. This includes galley utensils, plates, cups, personal gear, etc.
- All **cabinet doors, drawers and lockers** located on the vessel must be locked and secured.
- For **sailboat masts**, please remove the standing rigging, turnbuckles, mastheads, bow lights, antennas, spreaders, wind indicators, wires and winches.

Inspection before & after move (no exceptions)

- You or your designated representative will be asked to complete a **walk-around exterior inspection** of your watercraft at the origin and destination. It will be necessary for our driver to obtain a signature on the inspection form.*
- Exceptions will be noted on the bill of lading and a **signature will be required** from you or your appointed representative at both origin and destination.

**Please note: We deliver 7 days a week during daylight hours only to enable proper inspection of the vehicle.*

Our in-house Quality Care Team can assist with reports of damage received within 24 hours of delivery.
